Hi Dave,

Okay no problem. I agree that I would like SSPA's report to be as clear as possible. I'm fine with sending EPA's comments on the entire annual monitoring report after SSPA revises their report and we have a chance to discuss EGLE's comments. I would still like to get comments out to the PRPs this week for just the 2021 proposed sampling so they can order the necessary supplies. EGLE didn't have any issues with SSPA's evaluation of the proposed monitoring program on pages 8-10 of SSPA's report so I will wait for your comments and plan to draft/send out just the comments on the 2021 proposed sampling this week. Let me know if this is okay with you. Progressive has been asking as to when EPA will be sharing their comments on the sampling plan.

Best,

Hi Dave,

Have you had a chance to take a look at EGLE's comments? I'm working on drafting EPA's comment letter to send to the PRPs by Friday but wanted to get your thoughts on EGLE's comments first.

Best,

Hi Dave,

I attached SSPA's draft review of the 2020 Annual Monitoring Report and EGLE's comments. EGLE still needs to take a look at the proposed sampling plan for 2021 but said they should be getting this to me today. I need to get comments on the 2020 AMR and proposed 2021 sampling to the PRPs *very* soon. Do you have time today to take a look at EGLE's and SSPA's comments? I originally had a meeting planned with EGLE today to discuss but they have asked to reschedule to tomorrow or early next week. I'm leaning towards meeting with them tomorrow morning since we've had to reschedule several times already and I'd like to get the comment letter out to the PRPs next week. Let me know if you have time to look at the two attached documents and can discuss before the meeting with EGLE. If you don't have time this week maybe we can meet before I send out the comment letter to the PRPs.

Kelly,
I was finishing up a review for another site. I am now reviewing the 2020 Annual Monitoring Report and the other docs you forwarded to me.
I was talking to Matt Tonkin the president of SSPA on another site, but he did say they are almost complete with the review of the
2020 Annual Monitoring Report and their comment letter. So maybe we can all have a call sometime soon.

Dave

Hi Dave,

How's everything with the Verona files coming? I'll be meeting with EGLE either this week or next week to discuss the proposed plan for the PRPs upcoming sampling event but I was hoping to touch base with you first to talk about TSRR. I also wanted to talk about SSPA and the work they can do for the site to address the FYR issues and recommendations. Let me know if you think you have time to meet later this week.

Yes
Tim Prendiville said no issue to continue work on Verona.
I downloaded the files and will start to look through them with your *clear* set of questions in mind.

Talk to you soon.
Dave

Hi Dave,

Have you heard back about the SQAB request? [Here is a link](#) to the 2020 annual monitoring report from the PRPs and the excel sheet with all the data.

Hi,

I don't think repeat customers need to but I will check with my boss to make sure things have not changed.

Hi Dave,

I was hoping to bring you back on as the geo/hydro support for Verona – do you know if I need to submit a SQAB request for this?

Thanks,
